

ADCEM 200

special additive

DESCRIPTION

ADCEM PR is a powder additive used in the mixture of Cemfloor leveling compound. ADCEM PR creates a self leveling levelling compound. ADCEM PR provides several advantages including control in the various shrinkage steps and drying process in the recipe design of Cemfloor.

ADCEM PR gör det möjligt för Cemfloor avjämningsmassa att uppnå mycket låg krympning, med ett genomsnitt under 300 µ/m. Cemfloor golvbeläggning kan appliceras på ytor upp till 150 m² utan kontrollfogar.

FIELDS OF APPLICATION

- All Portland cement types

INDICATIVE INFORMATION

Product Nature	powder
Color	White
Lifetime	6 månader
Specific gravity	1,200
pH	12,00

PRECAUTIONS

- Protect from frost.
- Protect from humidity.
- Protect from heat.

SAFETY

Prior to any use, please read carefully the Material Safety Data Sheets.
